

MIALIZO RAZANAKOTO

SPACE POLICY, OUTREACH & INTERNATIONAL RELATIONS

French citizen | 67000 Strasbourg, France | +33 6 56 82 76 58 | mializo.razanakoto@gmail.com | [LinkedIn](#)

PROFILE

Space outreach and science diplomacy professional with 10+ years of experience building cross-border institutional partnerships and policy frameworks bridging Europe and Africa. Currently deepening expertise in space policy and institutional governance through a Master of Space Studies at the International Space University (a CNES scholar). Trilingual (French, English, and Malagasy). Seeking a contract or a permanent position in space policy and international relations starting in July. Based in Strasbourg, available to relocate.

WORK EXPERIENCES

Founder & Strategic Development Lead

HAIKINTANA | 2015 - 2025 | France - Madagascar

Haikintana is a recognised space outreach organisation dedicated to advancing science diplomacy, space outreach, and capacity building in Madagascar.

(1) International Relations & Institutional Diplomacy

- Coordinated a cross-border consortium of 5 institutions across France and Madagascar to establish a permanent Franco-Malagasy scientific cooperation framework, organising partner meetings, updating MoUs, and overseeing the execution of related projects.
- Served as primary contact for a bilateral agreement with the Malagasy Tourist Office (ONTM), leading negotiations, drafting, and signing the formal agreement as part of a joint astrotourism programme.

(2) Representation & Policy Advocacy

- Represented the organisation at international forums, including at CAP 2024 (IAU), where I delivered a presentation and engaged with institutional representatives from NASA, ESA, and partner countries on science diplomacy and space outreach advocacy.
- Served as National Coordinator for the IAU NameExoWorlds 2019, liaising directly with the International Astronomical Union (IAU) office and mobilising 250+ participants across a national coalition of associations and media to successfully name the exoplanet HD 153950b and its star.

(3) Event & Programme coordination

- Designed and scaled the "Madagascar under the Stars" festival across 4 cities over 3 editions (3,000+ participants in 2025), managing budgets, coordinating logistical and content aspects of events.
- Served as Regional Coordinator for Asteroid Day, liaising with the global Asteroid Day team, organising meetings, drafting the annual programme, coordinating teams, and overseeing the budget. Engaged 17,000+ online and 100 on-site participants annually.

Project manager - Digital Transformation

STILOG I.S.T | 2019 - 2024 | Paris

French software consulting firm specialising in digital transformation and planning solutions for defence and industrial clients.

(1) Strategic Planning

- Directed a portfolio of 20+ high-risk digital transformation projects for the French Air Force and private industrial leaders, ensuring alignment with complex institutional requirements and operational security standards.
- Managed full-scale project planning, risk mitigation, and budget forecasting across the full lifecycle from pre-sales to deployment.

(2) Stakeholder engagement

- Acted as a primary interface with the senior defence officials (commandants, colonels, and general staff), translating operational requirements into actionable project deliverables for 1,000+ end-users.
- Led pre-sales negotiations and strategic presentations to secure contracts.

ACADEMIC BACKGROUND

Master of Space Studies, Space Policy & Entrepreneurship track

International Space University - CNES Scholar | 2025 - 2026 | Strasbourg

(1) Policy & Governance

- Trained in Space Project Management & Policy, including SSA & SDA awareness and ESA governance.
- Conducted and presented a research paper on strengthening international cooperation for effective planetary defence governance.
- Co-designed a federal governance framework and a 5-year roadmap to consolidate fragmented national security assets into a unified hypothetical European space defence command structure.

(2) Strategic Communications & Publications

- Directed a podcast series interviewing high-level space decision-makers like Prof. Pascale Ehrenfreund and Dr Walter Peeters on space communication strategies, supported by the John Templeton Foundation.
- Co-authored a global communication roadmap for deep space human exploration, positioning society as a central stakeholder for space agencies and policymakers.

(3) Technical Literacy & Space Application

Modelled orbital scenarios using STK, built a robot as part of a team robotics competition, assembled a functional 1U CubeSat, and developed a GPS unit, demonstrating hands-on understanding of space systems engineering.

Master's degree in Project Management & Business Engineering

Le Cnam IIM | 2016 - 2018 | Paris

Bachelor's degree in Law, Economics and Management

Le Cnam | 2014 - 2016 | Madagascar, La Réunion, Paris

ADDITIONAL COURSEWORK

Geopolitics: a method of analyzing the world

Sorbonne University | November 2024 - April 2025 | Paris

Space Law: International relations in outer space through a legal prism

ENS PSL | September 2024 - January 2025 | Paris

SKILLS

Space policy

European Space Legal Framework - ESA Space Law & Policy - French Space Policy - ITU Operations - Technology transfer & Export Control - SDGs & ESG - SSA & SDA - Space Assurance - International Space Law (5 legal treaties)

Engineering

ECSS Standards - Requirements Management - Cubesat Design - Robotics - EO (Sentinel, Landsat)

Project Management

OCOTOQ, Agile, Waterfall, - Work package coordination - Risk analysis - Report writing - Stakeholder management

Digital tools

Visual Planning - Gantt - MSProject - Microsoft Office Suite - Notion - Canva - STK - TopCat

Interpersonal

Leadership and followership balance - Active listening and conflict resolution - Adaptability in intercultural and interdisciplinary contexts.

Languages

French (Bilingual), English (Fluent), Malagasy (Native), Spanish (Beginner)

NETWORK

- Member, African Initiatives for Planetary Sciences Steering Committee (since 2026)
- Member, Women in Aerospace-Europe, Strasbourg chapter (since 2025)
- Board member, French Astronomical Society (since 2023)
- Volunteer, Les Petits Cueilleurs d'Étoiles, leading astronomy workshops for hospitalized children (since 2022)
- Contributing writer, L'Astronomie Afrique webzine (since 2022)
- Member, Space Generation Advisory Council (since 2019)
- Regional Coordinator, Asteroid Day Madagascar (since 2017)
