

MIALIZO RAZANAKOTO

SPACE PROJECT MANAGER

French citizen | 67000 Strasbourg, France | +33 6 56 82 76 58 | mializo.razanakoto@gmail.com | [LinkedIn](#)

PROFILE

With five years of experience in digital transformation project management, including requirements gathering and analysis, project planning, and change management in demanding environments (defense, telecommunications), as well as 10 years of experience in promoting astronomy in Madagascar. I am currently completing my education at the International Space University (CNES scholarship recipient) to gain a thorough understanding of strategic space issues. I hope to use this dual expertise in digital technology and space knowledge to address current issues.

WORK EXPERIENCES

Digital project manager

STILOG I.S.T | 2019 - 2024 | Paris

French software consulting firm specializing in digital transformation and planning solutions for defence and industrial clients.

(1) Project management

- Coordinated 20+ digital transformation projects for private industrial clients and the French Air Force: requirements gathering, planning, risk analysis, writing functional specifications, and deliverable validation.
- Participated in pre-sales negotiations to translate functional needs into technical proposals.
- Managed project documentation across two areas: business deliverables (meeting minutes, specifications, requirements documents) and client data to be integrated. Including versioning, filing, and traceability.
- Served as the interface between clients and internal teams, including the TMA (Application Maintenance Team), for corrective and evolutionary maintenance of solutions while ensuring compliance with operational security standards.

(2) Functional Configuration

- Configured the Visual Planning tool in line with client needs.
- Led its deployment and coordinated integrations with third-party tools (SAP, JIRA) via API, ensuring data flow consistency across project IS systems.

(3) Change Management

- Drove end-user training and change management initiatives, ensuring smooth adoption of the tools.

Project and Partner Manager

HAIKINTANA | 2015 - 2025 | France - Madagascar

Haikintana is a recognized space outreach organisation dedicated to advancing science diplomacy, space outreach, and capacity building in Madagascar.

(1) Project Management

Across all of the projects below, I developed and maintained schedules, allocated tasks, facilitated meetings, managed budgets and teams, and wrote reports for the various partners:

- The creation of Madagascar's first operational astronomical observatory.
- The 3 editions of the "Madagascar sous les Étoiles" festival, reaching 3,000+ participants in 2025.
- The national IAU NameExoWorlds campaign in 2019, mobilizing 250+ participants, leading to the naming of exoplanet HD153950B and its host star.

(2) Partner Management

- Built a strategic network of partner institutions (Société Astronomique de France, Uranoscope d'Île-de-France, NGO Écoles du Monde, ONTM, AFIPS) to sustain our activities.
- Negotiated and monitored bilateral institutional agreements with ONTM and SAF, ensuring full traceability of commitments.
- Represented Haikintana at international forums and conferences, including CAP 2024 (IAU), on space communication strategies.

Project manager assistant

KORN FERRY | 2018 | Paris

Korn Ferry is an international firm offering end-to-end HR services from compensation management to employee engagement surveys.

- Collaborated with project managers to design and adapt to the client's sector.
- Attended and contributed to client and internal meetings
- Analyzed survey results, synthesized key findings and formulated targeted recommendations and action plan

ACADEMIC BACKGROUND

Master of Space Studies, Space Policy & Entrepreneurship track

International Space University - CNES Scholarship | 2025 - 2026 | Strasbourg

(1) Project Management

- Trained in space project management and product management, using European standards, WBS framework, risk analysis,
- Directed a podcast series interviewing high-level space decision-makers on space communication strategies, supported by the John Templeton Foundation.

(2) Technical literacy & Space Application

Mission Design: Modeled orbital scenarios using STK; designed a functional 1U CubeSat EO and built a GPS unit.

Master's degree in Project Management & Business Engineering

Le Cnam IIM | 2016 - 2018 | Paris

Bachelor's degree in Law, Economics and Management

Le Cnam | 2014 - 2016 | Madagascar, La Réunion, Paris

ADDITIONAL COURSEWORK

Geopolitics: a method of analysing the world

Sorbonne University | November 2024 - April 2025 | Paris

Space Law: International relations in outer space through a legal prism

ENS PSL | September 2024 - January 2025 | Paris

SKILLS

Space policy & knowledge

European Space Legal Framework - ESA Space Law & Policy - French Space Policy - ITU Operations - Technology transfer & Export Control - SDGs & ESG - SSA & SDA

Technical & Systems Engineering

ECSS Standards - Requirements Management - Cubesat Design - Robotics - EO (Sentinel, Landsat) - STK - TopCat

Program & Project Management

OCOTOQ, Agile, Waterfall, - Work package coordination - Risk analysis - Report writing - Stakeholder management

Interpersonal

Leadership and followership balance - Active listening and conflict resolution - Adaptability in intercultural and interdisciplinary contexts.

Digital tools

Visual Planning - Gantt - MSProject - Microsoft Office Suite - Notion - Canva

Languages

French (Bilingual), English (Fluent), Malagasy (Native), Spanish (Beginner A1)

NETWORK

- Member, African Initiatives for Planetary Sciences Steering Committee (since 2026)
- Member, Women in Aerospace-Europe, Strasbourg chapter (since 2025)
- Board member, French Astronomical Society (since 2023)
- Volunteer, Les Petits Cueilleurs d'Étoiles, leading astronomy workshops for hospitalized children (since 2022)
- Contributing writer, L'Astronomie Afrique webzine (since 2022)
- Member, Space Generation Advisory Council (since 2019)
- Regional Coordinator, Asteroid Day Madagascar (since 2017)
